An Economic Times Initiative

FEW INITIATIVES & LAUNCHES BY THE GOVT.

Digital Locker System - This aims to minimize the usage of physical documents and enable sharing of e-documents across agencies.

MyGov.in – it has been implemented as a platform for citizen engagement in governance, through a “Discuss”, “Do” and “Disseminate” approach.

Swachh Bharat Mission (SBM) Mobile app would be used by people and Government organizations for achieving the goals of Swachh Bharat Mission.

eSign framework would allow citizens to digitally sign a document online using Aadhaar authentication.

The Online Registration System (ORS) under the eHospital application has been introduced

National Scholarships Portal is said to be a one stop solution for end to end scholarship process right from submission of student application, verification, sanction and disbursement to end benefits.

DeitY has undertaken an initiative namely Digitize India Platform (DIP) for large scale digitization of records in the country that would facilitate efficient delivery of services to the citizens.

The Government of India has undertaken an initiative namely Bharat Net, a high speed digital highway to connect all 2.5 lakh Gram Panchayats of country. This would be the world's largest rural broadband connectivity project using optical fibre.

BSNL has introduced Next Generation Network (NGN), to replace 30 year old exchanges, which is an IP based technology to manage all types of services like voice, data, multimedia/ video and other types of packet switched communication services.

BSNL has undertaken large scale deployment of Wi-Fi hotspots throughout the country. The user can latch on the BSNL Wi-Fi network through their mobile devices.

BPO Policy has been approved to create BPO centres in different No ..

Electronics Development Fund (EDF) Policy aims to promote Innovation, R&D, and Product Development and to create a resource pool of IP within the country to create a self-sustaining eco-system of Venture Funds.

National Centre for Flexible Electronics (NCFlexE) is an initiative of Government of India to promote research and innovation in the emerging area of Flexible Electronics.

Centre of Excellence on Internet of Things (IoT) is a joint initiative of Department of Electronics & Information Technology (DeitY), ERNET and NASSCOM

THE ECONOMIC TIMES E - TECH OVERVIEW

The relation between Information Technology and Governance is integral and symbiotic. Aligning with this thought, the new Govt's integration of e governance & digital transformation can be a game changer for India. The totality of this inclination also blends aspects of other policies of the Govt. such as Smart Cities & Make in India. Clearly the vision of digitally revolutionizing our nation is a long term one & would require substantial investment in terms of technological upgradation, manpower, harnessing digital literacy & most significantly a plethora of standards set out & adhered to. Although, significant progress has been made in the past with use of Information Technology for enabling better governance, with successful launch of Digital India Program, the stage is now set for taking e Governance to the next level.

While the task is mammoth owing to multi-faceted challenges ahead, If the vision of Digital India is to be executed, it needs to be in a manner where the systems & processes emanating out of it would be able to talk to each other & the cost of the implementation is lower than the benefit derived from it.

THE ECONOMIC TIMES E - TECH SUMMIT

The Economic Times understands in order to take e Governance to the next level, Digital India initiative indeed has the potential to bring about substantial changes in the way we live, study & do business. With this initiative, we aim to gather key practitioners of ICT & Government on a common platform to deliver a more transparent and efficient governance mechanism. This Summit will also explore new trends and innovations that are transforming strategic priorities and enabling superior e Governance programs that add value to the citizens.
